

DELIVERING BETTER.

Johnstons Hire Centre's owners Deborah and Derrick Du Toit appreciate the value of hard work – the South African emigrants arrived in Ashburton in 1997 and have built a successful hire business on the back of blood, sweat and tears, which is why they turned to Fuso after deciding to expand their small fleet.

“We bought the business 12 years ago and inherited a Canter that has more than 180,000km on the clock and it’s still going strong,” says Deborah. “That, along with the fantastic purchase price, gave us the confidence to stick with Fuso when we bought two Canter 616 Tippers – we see these units as a ten-year plus investment.”

The units, based at Johnstons’ Christchurch yard, can be driven on a Class 1 licence can carry 3-tonne payloads and are fitted with 3.5-tonne rated tow bars – making them a popular choice with landscapers and contractors.

“That was a big attraction for us, because it means anyone can jump in the cab and drive them. I hadn’t driven a manual in a long time and drove them to our home depot in Ashburton for signwriting – it was so easy! They’re very user-friendly and are great value for money.”
