We look after our own

SAFETY FIRST.

In commercial transport, nothing is more critical to risk management than vehicle safety. When your cargo is people, safety demands even greater prominence in that risk assessment.

At FUSO, we lead this segment in the provision of Advanced Safety Features on our trucks and buses. A member of the Daimler family, we have access to rapidly evolving safety technologies and are proud to claim that the majority of the vehicles we sell have these safety systems fitted as standard.

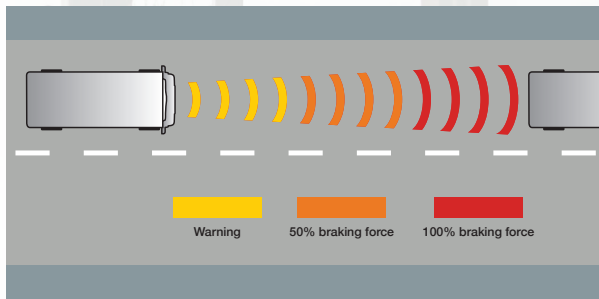

Advanced Emergency Braking with moving pedestrian detection*, Electronic Stability Control, Traction Control, Lane Departure Warning, Electronic Brake System and Hill Start Assist are now standard or available across our Rosa, Canter and Fighter ranges. The new Euro 6 Fighter also comes equipped with Active Sideguard Assist and Active Attention Assist.

Safety is further enhanced by features such as driver and passenger airbags, four-wheel disc brakes, exhaust brake, dehumidifying climate control, LED headlamps and ergonomic cockpits with greater visibility, which create a comfortable driving environment reducing stress and fatigue.

ELECTRONIC BRAKE SYSTEM.

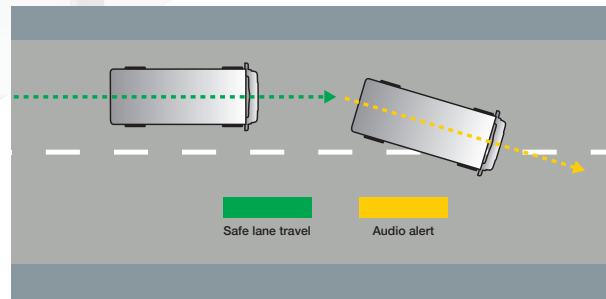

EBS is available on all FUSO bus solutions. It controls the brake pressure applied to each of the vehicle's four brakes to provide optimised stopping power regardless of loading and road conditions. This is in addition to the standard ABS system that the Rosa has enjoyed for many years.

** pedestrian detection not currently available with Fighter*

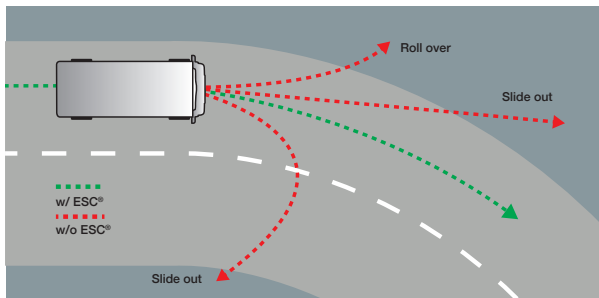

ACTIVE EMERGENCY BRAKING SYSTEM.

AEBS helps to avoid or mitigate collisions with moving pedestrians and other vehicles by using a radar to monitor the road ahead. The radar triggers visual and audio warnings followed by automatic braking activation, depending on proximity to the obstacle ahead. Drivers can override **AEBS** by pressing the accelerator.

LANE DEPARTURE WARNING SYSTEM.

LDWS operates at speeds over 60km/h to reduce the risk of lane departure accidents caused by distraction or fatigue. A camera behind the windscreen detects lane markings and triggers visual and audio alerts if the vehicle crosses without the indicator deployed.

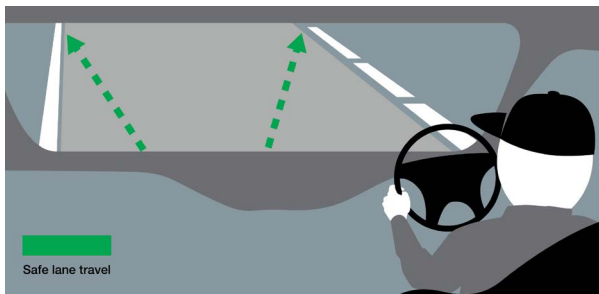

ELECTRONIC STABILITY CONTROL.

ESC employs a steering sensor and yaw rate sensor to detect loss of control. This information is relayed to a hydraulic unit, which applies appropriate brake force to individual wheels to aid steering control, improve stability and prevent rollover.

ALL-NEW 7" TOUCHSCREEN WITH REVERSING CAMERA.

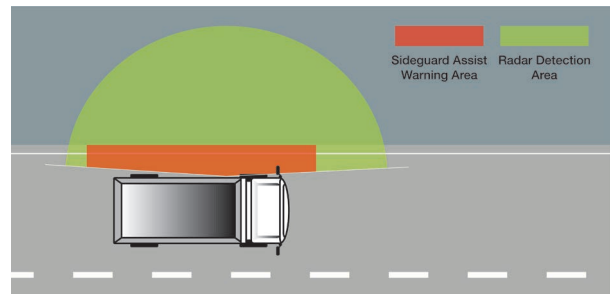

An on-dash screen relays images from the rear-mounted reversing camera and works with Apple CarPlay or Android Auto for hands-free talking text-to-speech functionality. Four additional cameras reverse sensors and tyre pressure monitoring are further optional extras.

ACTIVE ATTENTION ASSIST. (DRIVER FATIGUE MONITORING)

FIGHTER ONLY

This system monitors steering behaviour, travel between lane markings and driver reactions to register signs of driver fatigue and issue an alert if detected.

ACTIVE SIDEGUARD ASSIST.

FIGHTER ONLY

Detects moving objects on the left-hand side of the vehicle and triggers a warning light. If there is risk of collision, the warning light turns red and a warning tone sounds if the risk of collision becomes imminent.

ROSA

CUSTOM. SCHOOL. AWD.

The safest bus of its size in New Zealand, with excellent fuel efficiency, proven performance and Euro 6 minimum emissions – available in three models.

ROSA

CUSTOM.

The Rosa Custom bus sets a new standard for 24-seat medium duty buses in New Zealand.

A new 3L JP17 (Euro 6 equivalent) ultra-low emission 129kW engine combines with advanced safety features to better protect customers, drivers, other road users – as well as the environment and operating costs.

Passengers will ride in comfort and style on high-grade luxury seats with lap-sash seatbelts. The cabin temperature is regulated by full dehumidifying climate control, while a new ergonomically comfortable cockpit complete with 7" multi communication system with reversing camera offers drivers greater visibility and reduced fatigue. Improved braking has allowed the provision of an additional 900kg of braked towing capacity.

KEY FEATURES

- Advanced Safety Features.
- New 3L ultra-low emission JP17 (Euro 6 equivalent) engine.
- 7" multi communication system with up to 5 reversing cameras.
- High-grade luxury seats with lap-sash seatbelts.
- Driver and front passenger airbags.
- 1,615kg braked tow rating.
- 5 year / 200,000km extended warranty.*
- 30,000km / 12mth service intervals.

TECHNOLOGY AND PERFORMANCE

- JP17 (Euro 6 equivalent) engine (129kW / 430Nm @ 1600~2860 RPM).
- DUONIC 2.0 6-spd automated-manual transmission with manual shift option.
- Kerb weight reduced by more than 150kg over predecessor.
- 4-wheel disc brakes.
- Improved aerodynamics to reduce fuel consumption.

SAFETY AND COMFORT

- Advanced Emergency Braking System.
- Lane Departure Warning System.
- Electronic Stability Program.
- Anti-lock Braking System.
- Traction Control.
- Hill Start Assist.
- LED headlamps with height adjust.
- 3-Point ELR on all seat belts.
- Emergency opening control from outside.
- Full climate control AC with dehumidification function.
- Bonded and tinted black sash windows.

ADDITIONAL FEATURES

- FUSO 'Black Belt' exterior.
- Light grey headlining for a feeling of more space.
- Black floor covering.
- LED interior lights.
- 6-speaker sound system.
- Multi communication system with PA + Apple Car Play & Android Auto.
- Height and reach adjustable steering column.
- Alloy wheels.
- LED fog & cornering lamp.
- Rear door for emergency exit only.
- Flush-fitting entrance door.

Passengers
24 (plus driver)

Body length
7,730mm

Extended Warranty
5-year / 200,000km

Transmission
DUONIC 2.0 6-SPD

Power / Torque
129kW / 430Nm

** Simply have your vehicle serviced at an authorised FUSO Service Centre, at the recommended servicing intervals, and you are covered by an additional 2 year / 100,000km FUSO warranty on top of the first 3 years / 100,000km. That's a total of 5 years / 200,000km cover. Refer to terms and conditions in the FUSO warranty booklet for full details.*

ROSA

SCHOOL.

The safest school bus on the market, Rosa School boasts optional retractable lap seatbelts on all seats and is stacked with advanced safety features such as Advanced Emergency Braking, Electronic Stability Control, Lane Departure Warning and Hill Start Assist.

Further supporting the health and safety of young people, its new 3L Euro 6 engine produces ultra-low CO₂ and particulate matter outputs. Ergonomic improvements to the cockpit, including a 7" multi communication system with reversing camera, improve driver visibility and help reduce fatigue.

It's safety first, but durability and economy aren't far behind. Hard-wearing vinyl seats, improved fuel consumption, 30,000 km service intervals and a 5-year / 200,000km warranty* put Rosa top of class.

KEY FEATURES

- Advanced Safety Features.
- New 3L ultra-low emission Euro 6 engine.
- 7" multi communication system with up to 5 reversing cameras.
- Hard-wearing vinyl seats with optional seatbelts.
- Driver and front passenger airbags.

CANTER

4x2

Choosing a FUSO truck chassis for bus applications is a tried and trusted option that has proven simple and cost-effective for operators around the country – an option that comes with all the added benefits these class-leading vehicles are renowned for.

FIGHTER

4x2 / 6x2

CANTER

CUSTOM TRUCK BUILD.

Choosing FUSO's class-leading light truck chassis for bus applications is a tried and trusted option that has proven simple and cost-effective for operators around the country – and it's an option that comes with all the added benefits Canter is renowned for, including advanced safety features that help ensure everyone arrives safely at their destination, day after day.

The Canter 918 long wheelbase model is typically used for this application. The 918 is the most powerful Canter in the range. With an 8.55-tonne GVM and 4,750mm wheelbase, seating can be achieved for 36 passengers.

KEY FEATURES

- Proven 4-cylinder 3.0L FUSO 4P10 diesel engine with variable geometry turbo—light, compact, efficient and durable.
- 30,000km service intervals reducing maintenance costs.
- Exclusive brake priority system overrides the accelerator.
- Option of FUSO's industry-leading, highly efficient DUONIC 2.0 dual wet clutch automated manual transmission, which significantly lowers running costs and simplifies driving.

TECHNOLOGY AND PERFORMANCE

- EEV rated engine is cleaner than Euro 5 and produces less smoke and lower PM and CO².
- Piezo Fuel Injection system efficiently improves fuel economy and reduces pollutants.
- Variable geometry turbo with electronic feedback control improves torque delivery.
- 12 volt electrical system allows seamless integration of accessories (no voltage reducer required).

SAFETY AND COMFORT

- Active Emergency Braking System.
- Lane Departure Warning System.
- Electronic Stability Control.
- Multimedia touchscreen display with reversing camera display and Apple CarPlay or Android Auto compatibility for hands-free talking and text-to-speech functionality.
- Front and rear dual calliper disc brakes for increased braking performance.
- Reinforced cab meets European (ECE-R29) standards.
- Suspended driver's seat with folding arm rest, lumbar support and weight adjustment.

ADDITIONAL FEATURES

- Hill Start System.
- Speed Limiter.
- 5-year / 200,000km extended warranty*
- Optional extras: up to four additional cameras for media unit; GPS navigation; reverse sensors; tyre pressure monitoring system; wireless phone-charging pocket.

Passengers
24-36 (plus driver)

Body length
Up to 8,600mm

Extended Warranty
5-year / 200,000km

Transmission
Manual or
DUONIC AMT

Power / Torque
110kW / 370Nm
– 129kW / 430Nm

** Simply have your vehicle serviced at an authorised FUSO Service Centre, at the recommended servicing intervals, and you are covered by an additional 2 year / 100,000km FUSO warranty on top of the first 3 years / 100,000km. That's a total of 5 years / 200,000km cover. Refer to terms and conditions in the FUSO warranty booklet for full details.*

FIGHTER

CUSTOM TRUCK BUILD.

FUSO Fighter has gained a reputation over nearly three decades in New Zealand as being one of the best medium-duty trucks around. Economical and reliable across a wide range of applications, Fighter delivers on all fronts.

Our Euro 6 models with advanced safety features take driver protection and operational efficiency to the next level. The new Fighter also comes with Active Attention Assist driver fatigue monitoring and Active Sideguard Assist.

Additional safety upgrades include a front underrun system, which provides added protection in the event of a collision by dissipating impact forces and preventing cars from running under the front of the cab, daytime-running lights, fog lights and an adjustable speed limiter.

KEY FEATURES

- Advanced safety features.
- Euro 6 drivetrain.
- Proven six-cylinder 6M60 engine with improved performance on 250hp model.
- 6spd or 9spd manual or Allison transmission.
- Full air brake system on all models with spring park brake.

TECHNOLOGY AND PERFORMANCE

- Euro 6 drivetrain available in 250hp 6M60T1 or 280hp 6M60T2 engines.
- SCR technology delivering Euro 6 emissions and low fuel consumption.
- Digital dash display and trip computer with fuel economy data.

SAFETY AND COMFORT

- Active Emergency Braking System, Lane Departure Warning, Electronic Stability Control, Driver Attention Assist Monitoring, Active Sideguard Assist, Front Underrun System.
- Traction Control (except on Auto models).
- ABS/EBS and driver side air bag.
- Isringhausen air suspension driver's seat.
- Multimedia touchscreen display with reverse camera and Apple CarPlay / Android Auto compatibility.

ADDITIONAL FEATURES

- Remote central locking.
- Electric windows.
- Cruise control.
- Rear air suspension.
- 5-year / 300,000km warranty*
- Optional extras: up to four additional cameras for media unit; GPS navigation; reverse sensors; tyre pressure monitoring system.

Passengers
46-52 (plus driver)

Body length
Up to 12,000mm

Extended Warranty
5-year / 300,000km

Transmission
Manual or
Allison Automatic

Power / Torque
207kW / 802Nm
184kW / 761Nm

**Simply have your vehicle serviced at an authorised FUSO Service Centre, at the recommended servicing intervals, and you are covered by an additional 2 year / 150,000km FUSO warranty on top of the first 3 years / 150,000km. That's a total of 5 years / 300,000km cover. Refer to terms and conditions in the FUSO warranty booklet for full details.*

ADDED PEACE OF MIND

FINANCE OPTIONS.

FUSO Financial

You've chosen the perfect bus. Now choose the perfect finance solution to match.
